"Originally published in single magazine

form in *Weird war tales* 1-21, c1971, 1972, 1973 DC Comics." This spooky - yet sensitive - trilogy reveals that, on Halloween, it's always darkest before the dawn. In *Halloween*, immerse yourself in the great book of the night. And if, at a street corner, you meet a ghost, take a walk with him. You may just recognize him — and if melancholy torments you — he could be the one to make you smile again. Then, in *The Story of Joe*, a solitary boy finds refuge with the creatures of the night. But consumed by his imagination, he loses touch with reality and undergoes a strange transformation... Finally, in *The Book of Jack*, braving a haunted house, young Jack discovers a mysterious book, a book that tells the story of his life. But what dark twists could others write into the blank pages that remain? Follow these young characters in stories that span from the dusk of childhood to the dawn of adolescence, as they explore the darkness and light in us all. "What a strange new world, to have such creatures in it!"

Forced into hiding by a global ecological cataclysm, humans emerge from their underground warrens half a millennium later to discover that the Earth has been totally transformed. All of the familiar flora and fauna are gone, replaced by a radically altered natural order populated by rampaging dinosaurs and strange new creatures. It takes guts, grim determination, ingenuity and a whole lot of old-fashioned luck just to survive, much less thrive, in this alien wilderness--all qualities that ace mechanic Jack Tenrec, lovely scientist Hannah Dundee and their friends possess in abundance. But even the worthiest of these hardy souls are hard-pressed to surmount the obstacles presented by their new homeland. And when those trials are further compounded by the underhanded and selfish actions of the cutthroat human scavengers they encounter, even the best-equipped and bravest among them might not endure. *Xenozoic* combines lush and richly realized ink-and-brush artwork with a pulp-fueled narrative to create an action-packed fantasy--an unrelenting adventure that also serves as a subtle cautionary fable concerning the unforeseen consequences that shortsighted present-day decisions might have upon future generations. An action-packed debut title for middle grade readers with an appetite for folklore and mythology, who are ready to move beyond storybook fairy tales. Debut author Alexander Utkin, retells the Slavic myths of his youth in a stunning new graphic novel, illustrated in a bold new style.
