11 2022 What would a classroom look like if understanding and respecting differences in race, culture, beliefs, and opinions were at its heart? Welcome to Mary Cowhey's Peace Class in Northampton, MA, where first and second graders view the entire curriculum through the framework of understanding the world, and trying to do

their part to make it a better place. Woven through the book is Mary's unflinching and humorous account of her own roots in a struggling large Irish Catholic family and her early career as a community activist. Mary's teaching is infused with lessons of her heroes: Gandhi, Eleanor Roosevelt, Helen Keller, Martin Luther King, and others. Her students learn to make connections between their lives, the books they read, the community leaders they meet, and the larger world. If you were inspired to become a teacher because you wanted to change the world, and instead find yourself limited by teach-to-the-test pressures, this is the book that will make you think

hard about how you spend your time with students. It offers no easy answers, just a wealth of insight into the challenges of helping students think critically about the world, and starting points for conversations about diversity and controversy in your classroom, as well as in the larger community.

Estimating Mortality Risk Reduction and Economic Benefits from Controlling Ozone Air Pollution

Jul 02 2021 In light of recent evidence on the relationship of ozone to mortality and questions about its implications for benefit analysis, the

Environmental Protection Agency asked the National Research Council to establish a committee of experts to evaluate independently the contributions of recent epidemiologic studies to understanding the size of the ozone-mortality effect in the context of benefit analysis. The committee was also asked to assess methods for estimating how much a reduction in short-term exposure to ozone would reduce premature deaths, to assess methods for estimating associated increases in life expectancy, and to assess methods for estimating the monetary value of the reduced risk of premature death and increased life expectancy in the

context of health-benefits analysis. Estimating Mortality Risk Reduction and Economic Benefits from Controlling Ozone Air Pollution details the committee's findings and posits several recommendations to address these issues.

Reading Reconsidered Apr 30 2021 TEACH YOUR STUDENTS TO READ WITH PRECISION AND INSIGHT The world we are preparing our students to succeed in is one bound together by words and phrases. Our students learn their literature, history, math, science, or art via a firm foundation of strong reading skills. When we teach students

to read with precision, rigor, and insight, we are truly handing over the key to the kingdom. Of all the subjects we teach reading is first among equals. Grounded in advice from effective classrooms nationwide, enhanced with more than 40 video clips, Reading Reconsidered takes you into the trenches with actionable guidance from real-life educators and instructional champions. The authors address the anxiety-inducing world of Common Core State Standards, distilling from those standards four key ideas that help hone teaching practices both generally and in preparation for assessments. This 'Core of the Core'

comprises the first half of the book and instructs educators on how to teach students to: read harder texts, 'closely read' texts rigorously and intentionally, read nonfiction more effectively, and write more effectively in direct response to texts. The second half of Reading Reconsidered reinforces these principles, coupling them with the 'fundamentals' of reading instruction—a host of techniques and subject specific tools to reconsider how teachers approach such essential topics as vocabulary, interactive reading, and student autonomy. Reading Reconsidered breaks an overly broad issue into clear, easy-to-

implement approaches. Filled with practical tools, including: 44 video clips of exemplar teachers demonstrating the techniques and principles in their classrooms (note: for online access of this content, please visit my.teachlikeachampion.com) Recommended book lists Downloadable tips and templates on key topics like reading nonfiction, vocabulary instruction, and literary terms and definitions. Reading Reconsidered provides the framework necessary for teachers to ensure that students forge futures as lifelong readers.
