It's 1870 and a deadly virus has decimated the population of North America. Masked corpse-collectors roam the streets, removing the bodies before the contagion can spread. Though Araby tries to escape it all with drugs and parties, even at her most intoxicated she can't forget her brother's death - or her guilt for causing it. But things begin to change when William, the fascinating proprietor of The Debauchery Club where she searches for oblivion, and Elliott, nephew of the insane dictator, enter her life. One wants her heart, and the other her name. Convinced that he has won over his uncle's army, Elliott believes that having Araby on his arm will charm the populace into supporting a new government. After all, her father is the inventor of the mask which prevents the spread of the plague and saved civilisation - for those who can afford it... But Araby's greatest interest is that his plans will make protective masks available to all citizens and, in particular, to Will's young siblings, whom she has come to love despite herself. But nothing is what it seems. A new contagion called the Red Death is sweeping the city and a shocking revelation about the origin of the new virus puts Araby's life in danger. The mob wants her. The rebels want her. And both boys want her. In this superb two-book series, what and whom Araby chooses may just decide the fate of humanity... "The Masque of the Red Death", originally published as "The Mask of the Red Death: A Fantasy", is an 1842 short story by American writer Edgar Allan Poe. The story follows Prince Prospero's attempts to avoid a dangerous plague, known as the Red Death, by hiding in his abbey. He, along with many other wealthy nobles, hosts a masquerade ball within seven rooms of the abbey, each decorated with a different color. In the midst of their revelry, a mysterious figure disguised as a Red Death victim enters and makes his way through each of the rooms. Prospero dies after confronting this stranger, whose "costume" proves to contain nothing tangible inside it; the guests also die in turn. Poe's story follows many traditions of Gothic fiction and is often analyzed as an allegory about the inevitability of death, though some critics advise against an allegorical reading. Many different interpretations have been presented, as well as attempts to identify the true nature of the titular disease. The story was first published in May 1842 in *Graham's Magazine* and has since been adapted in many different forms, including a 1964 film starring Vincent Price. *Midnight Masque* by Jenna Ryan released on Sep 24, 1993 is available now for purchase. Originally published in 1927, this book provides a detailed history of the English court masque from its origins until the reign of Charles II. The text is illustrated with drawings of masque costumes and set designs, and Welsford discusses the influence that masque had on later drama and the significance that the revels had at the time. The book will be of value to anyone with an interest in British theatre history and court masque. *An Alchemy of Masques and Mirrors* is Curtis Craddock's delightful and engrossing fantasy debut featuring a genius heroine and her guardian, a royal musketeer, which Brandon Sanderson calls, "A great read!" All shall change, however, when an unlikely marriage proposal is offered, to the second son of a dying king in an empire collapsing into civil war. But the last two women betrothed to this prince were murdered, and a sorcerer-assassin is bent on making Isabelle the third. Isabelle and Jean-Claude plunge into a great maze of prophecy, intrigue, and betrayal, where everyone wears masks of glamour and lies. Step by dangerous step, Isabelle must unravel the lies of her enemies and discovers a truth more perilous than any deception. "A setting fabulous and strange, heroes to cheer for, villains to detest, a twisty, tricky plot — I love this novel!" —Lawrence Watt Evans "A thrilling adventure full of palace intrigue, mysterious ancient mechanisms, and aerial sailing ships!" —David D. Marriage, Performance, and Politics at the Jacobean Court constitutes the first full-length study of Jacobean nuptial performance, a hitherto unexplored branch of early modern theater consisting of masques and entertainments performed for high-profile weddings. Scripted by such writers as Ben Jonson, Thomas Campion, George Chapman, and Francis Beaumont, these entertainments were

mounted for some of the most significant political events of James's English reign. Here Kevin Curran analyzes all six of the elite weddings celebrated at the Jacobean court, reading the masques and entertainments that headlined these events alongside contemporaneously produced panegyrics, festival books, sermons, parliamentary speeches, and other sources. The study shows how, collectively, wedding entertainments turned the idea of union into a politically versatile category of national representation and offered new ways of imagining a specifically Jacobean form of national identity by doing so. *Love, lies and memory thieves.* There's nothing Sarilla hates more than stealing memories, but the king forces her to, just so he can keep his subjects in line. She wants to escape to where nobody knows what she is or what she can do, but her plans go awry when she runs into someone she would much rather forget. Falon has a six-month void in his memories that he's desperate to restore. He doesn't know why they were taken or what they contained, nor why the man he loves is acting so cagily about what happened during that time. He hopes to use Sarilla to get back what was stolen from him and isn't interested in why she's so desperate to escape. She will help him get back what he's lost, whether she wants to or not. Join Sarilla and Falon in this twisted tale about how sometimes good intentions aren't enough to keep the darkness at bay. The story of a Japanese boy's development towards a homosexual identity during and after the Second World War. In narrating his progress from an isolated childhood through adolescence to manhood, he exposes his inner life, full of repressed homosexual desires and preoccupations with sadomasochism and death. The enduring power of the novel is in part owing to its themes of fantasy, despair, and alienation, its eloquent voice and its autobiographical nature - the equally enduring fascination with the life and character of one of Japan's most turbulent artists.

*SHADOW WALTZ* There is a war that never ends, a war that stretches beyond the walls of this world and grinds its foot soldiers to dust. Meg Roberts, traitor to a cause she never really understood, believed that she had escaped the conflict. But when a young girl comes to her for help, she finds herself wrenched back into the that nightmare dance of souls. Monstrous forces are stirring and each side demands her allegiance.

*SHADOW WALTZ* There is no distance between the past and the present There is no end to the war of wars There is no escape, even in death Limon presents an unconventional approach to the Stuart masque, discussing the masque as a form of courtly ritual rather than a truly theatrical performance. As seen from this perspective, the masque is the deepest, most complex, and many-faceted reflection of early Stuart culture. Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself. Beauty met the Beast and there was...bloody murder? It's the Annual Ambassadorial Ball in Glause, and Lady Isabella Farrah, the daughter of New Civet's Ambassador, is feeling pleasantly scintillated. In the library is Lord Pecus, a charming gentleman whose double mask hides a beastly face, and who has decided that Isabella is the very person to break the Pecus curse. In the ballroom is young Lord Topher, who is rapidly falling in love with an older woman. And in the cardroom, lying in a pool of his own blood, is the body of one of Isabella's oldest friends: Raoul, Civet's Head Guardsman. The papers sewn into his sash seem to suggest espionage gone wrong, but Isabella is not so certain. Lord Pecus, as Commander of the Watch, is of the opinion that Isabella should keep out of the investigation and out of danger. Isabella is of the opinion that it is her murder to investigate, and that what a certain Beast-Lord doesn't know won't hurt him... Will Isabella find the murderer before Lord Pecus does, or will she end her investigation as a bloody spatter on the parlour floor?

Literary geographies is an exciting new area of interdisciplinary research. Innovative and engaging, this book applies theories of landscape, space and place from the discipline of cultural geography within an early modern historical context. Different kinds of drama and performance are analysed: from commercial drama by key playwrights to household masques and entertainment performed by families and in semi-official contexts. Sanders provides a fresh look at works from the careers of Ben Jonson, John Milton and Richard Brome, paying attention to geographical spaces and habitats like forests, coastlines and arctic landscapes of ice and snow, as well as the more familiar locales of early modern country estates and city streets and spaces. Overall,

the book encourages readers to think about geography as kinetic, embodied and physical, not least in its literary configurations, presenting a key contribution to early modern scholarship.
