The Lost World Feb 21 2023 The Lost World is a novel released in 1912 by Arthur Conan Doyle concerning an expedition to a plateau in South America where prehistoric animals (dinosaurs and other extinct creatures) still survive. The character of Professor Challenger was introduced in this book. Interestingly, for a seminal work of dinosaur-related fiction, the animals only occupy a small portion of the narrative. Much more time is

devoted to a war between early human hominids and a vicious tribe of ape-like creatures.

The 1908 Olympic Games Jan 16 2020

The 1908 Olympic Games were controversial. There was almost constant bickering among the American team and the British officials. Because of the controversies, the 1908 Olympics have been termed "The Battle of Shepherd's Bush," referring to the site

of the Olympic Stadium. Reports of the 1908 Olympics have been rare and do not for instance contain full results for archery, track and field athletics, football (soccer), gymnastics, motorboating and shooting. A great deal of new information has been discovered by the authors, and this work gives complete results for all events. The information presented is based primarily on 1908 sources. For the first time, definitive word on the sites, dates, events, competitors, and nations as well as the event results are available for all of the 1908 Olympic events, including boxing, cycling, diving, fencing,

field hockey, lacrosse, polo, raquets, swimming, lawn tennis, tug-of-war, weightlifting, wrestling and yachting, among other sports. A series of appendices include rarely seen information about the many controversies surrounding the Games.

When the World Screamed (Professor Challenger Series)

Jul 02 2021 This early work by

Arthur Conan Doyle was originally published in 1928 and we are now republishing it with a brand new introductory biography as part of our Professor Challenger series. Arthur Conan Doyle was born in Edinburgh, Scotland, in 1859. It was between 1876 and 1881, while studying medicine at the University of Edinburgh, that he began writing short stories, and his first piece was published in Chambers's Edinburgh Journal before he was 20. In 1887, Conan Doyle's first significant work, *A Study in Scarlet*, appeared in Beeton's Christmas Annual. It featured the first appearance

of detective Sherlock Holmes, the protagonist who was to eventually make Conan Doyle's reputation. A prolific writer, Conan Doyle continued to produce a range of fictional works over the following years. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

is a result of an effort made by us towards making a contribution to the preservation and repair of original classic literature. In an attempt to preserve, improve and recreate the original content, we have worked towards: 1. Type-setting & Reformatting: The complete work has been re-designed via professional layout, formatting and type-setting tools to re-create the same edition with rich typography, graphics, high quality images, and table elements, giving our readers the feel of holding a 'fresh and newly' reprinted and/or revised edition, as opposed to other scanned & printed

(Optical Character Recognition - OCR) reproductions. 2. Correction of imperfections: As the work was re-created from the scratch, therefore, it was vetted to rectify certain conventional norms with regard to typographical mistakes, hyphenations, punctuations, blurred images, missing content/pages, and/or other related subject matters, upon our consideration. Every attempt was made to rectify the imperfections related to omitted constructs in the original edition via other references. However, a few of such imperfections which could not be rectified due to

intentional\unintentional omission of content in the original edition, were inherited and preserved from the original work to maintain the authenticity and construct, relevant to the work. We believe that this work holds historical, cultural and/or intellectual importance in the literary works community, therefore despite the oddities, we accounted the work for print as a part of our continuing effort towards preservation of literary work and our contribution towards the development of the society as a whole, driven by our beliefs. We are grateful to our readers for putting

their faith in us and accepting our imperfections with regard to preservation of the historical content. HAPPY READING! *Return to the Lost World* Jan 28 2021 Luke Challenger is no ordinary boy. Gothic Tales Dec 07 2021 'There was a rumour, too, that he was a devil-worshipper, or something of that sort, and also that he had the evil eye...' Arthur Conan Doyle was the

greatest genre writer Britain has ever produced. Throughout a long writing career, he drew on his own medical background, his travels, and his increasing interest in spiritualism and the occult to produce a spectacular array of Gothic stories. Many of Doyle's writings are recognized as the very greatest tales of terror. They range from hauntings in the polar wasteland to evil surgeons and malevolent jungle landscapes. This collection brings together over thirty of Conan Doyle's best "Gothic Tales," in a scholarly edition for the first time. Darryl Jones's introduction

discusses the contradictions in Conan Doyle's very public life - as a medical doctor who became obsessed with the spirit world, or a British imperialist drawn to support Irish Home Rule - and shows the ways in which these found articulation in that most anxious of all literary forms, the Gothic.

Look how the water

By Jove! See, here

running parallel to
the large ones. "But

Professor
Summerlee,
triumphantly,
pointing to what

among the three-

"Wealden!" cried
Challenger, in an
ecstasy. "I've seen
them in the
Wealden clay. It is a
creature walking
erect upon three-
toed feet, and
occasionally putting
one of its five-

upon the ground.
Not a bird, my dear

"A beast?" "No; a

Nothing else could

have
hoped—hoped—to

Volume 1, richly illustrated, relates the expedition of the Challenger and addresses the problems of measuring the great depths. A theoretical approach to the immersion velocity of a probe is also proposed, as well as a presentation of some results of bathymetric surveys and physical observations made by the Challenger scientists. From Deep Sea to Laboratory is available in three volumes for curious

readers drawn to travel, history and science. Students, researchers and teachers of physics, fluid mechanics and oceanography will find material to deepen their knowledge. *General Register* Mar 10 2022 Announcements for the following year included in some vols. Arthurian Studies series because it contains highly important new work on the medieval aspects of Arthurian legend, ranging from Rachel Bromwich's essay on the Celtic elements in Arthurian romance and A.O.H Jarman's study of Arthurian allusions in the Black Book of Carmarthen to examinations of the Spanish and French romances of the 15th century. There are five papers on the romances of Chretien de Troyes, including pieces by Tony Hunt, Kenneth Varty and Charles Foulon, two on Welsh and German romances associated with Chretien's work, while other studies are on the Breton

lais and on the English romances. In all, this is a wide-ranging and valuable collection, and a welcome addition to the series.
