Reading Behind Bars Aug 18 2022 In December 2008, twentysomething Jill Grunenwald graduated with her master's degree in library science, ready to start living her dream of becoming a librarian. But the economy had a different idea. As the Great Recession reared its ugly head, jobs were scarce. After some searching, however, Jill was lucky enough to snag one of the few librarian gigs left in her home state of Ohio. The catch? The job was behind bars as the prison librarian at a men's minimum-security prison. Talk about baptism by fire.

Bible Synopsis Dec 22 2022 Have you ever listened to a sermon at church and felt overwhelmed because you did not understand the biblical references? Do you feel embarrassed because your kids seem to know more about the Bible than you do? Do you struggle to understand what certain books of the Bible are all about? If you answered yes to any of these questions, then Bible Synopsis is for you! Bible Synopsis is a "Reader's Digest" version of the Bible. Each chapter of the Bible is condensed into a clear and concise summary-no "thee's and thou's"-giving you "bottom-line," who-did-what type information. The book follows the same order as the books of the Bible, and includes helpful indexes at the end as well as a summary of important Bible characters. It can be used as an aid in

personal or group Bible studies, and a complete CD with richly illustrated PowerPoint slides is available from Dr. Miller's website, Biblesynopsis.com. Bible Synopsis is a must read for anyone desiring to increase their understanding of the Bible. The Word will never be more succinct!

Visual Basic 2008 Oct 08 2021 Created by world-renowned programming instructors Paul and Harvey Deitel, Visual Basic 2008 How to Program, Fourth Edition introduces all facets of the Visual Basic 2008 language hands-on, through hundreds of working programs. This book has been thoroughly updated to reflect the major innovations Microsoft has incorporated in Visual Basic 2008 and .NET 3.5; all discussions and sample code have been carefully audited against the newest Visual Basic language specification. The many new platform features covered in depth in this edition include: LINQ data queries, Windows Presentation Foundation (WPF), ASP.NET Ajax and the Microsoft Ajax Library, Silverlight-based rich Internet application development, and creating Web services with Windows Communication Foundation (WCF). New language features introduced in this edition: object anonymous types, object initializers, implicitly typed local variables and arrays, delegates, lambda expressions, and extension methods. A series of appendices provide essential programming reference material on topics ranging from number systems to the Visual Studio Debugger, UML 2 to Unicode and ASCII.

AUDIENCE: Appropriate for anyone interested in learning programming with Visual Basic 2008.

SafeFITS - Safe Future Inland Transport Systems Sep 19 2022 This report presents the results of the project Safe Future Inland Transport Systems (SafeFITS), which aims to develop a robust road safety decision-making tool to support the most appropriate road safety policies and measures to achieve tangible results. Road accidents constitute a major social problem in modern societies, accounting for more than 1 million accidents per year in EU-28 (2,900 per day), resulting in 1.4 million injuries and 26,000 fatalities. Current trends suggest that, unless

action is taken, traffic injuries will become the fifth leading cause of death by 2030, with the disparity between high-income and low-income countries further increased.

Switching Power Supply Design & Optimization Nov 09 2021 This is a rigorous, carefully explained and motivated "beginner's bible" to power supply design. Between dense, mathematical textbooks on power electronics and tiny power supply "cookbooks" there exists no practical tutorial on the hazards of contemporary power supply design. Our Pressman book, the 800 lb gorilla in the field, is both mathematically dense and 7 years old. This new book, detailing cutting edge thermal management techniques, grouping key design equations in a special reference section, and containing a concise Design FAQ, will serve both as an invaluable tutorial and quick reference.

Contemporary Labor Economics Mar 21 2020 The sixth edition of "Contemporary Labor Economics" focuses on the "new" labor economics and provides updated material on a range of public policy issues. Chapter summaries and listings of key terms increase the book's accessibility. Campbell R. McConnell is a University of Nebraska professor emeritus. Stanley L. Brue teaches at Pacific Lutheran University. David A. Macpherson teaches at Florida State University.

New Mechanisms in Glucose Control Jan 23 2023 New Mechanisms in Glucose Control presents a clear overview of the new drugs and treatment therapies that have been developed in recent years to help improve glycaemic management for the diabetic patient, namely the incretin mimetics (GLP-1 agonists) and DPP-4 inhibitors. It also considers other drug classes currently in development and undergoing clinical trials including the SGLT2 inhibitors and other pipeline products. In addition to pharmaceutical agents, the role of bariatric as a management tool for diabetes is covered as well as consideration of the organisation of diabetes care with a community focus. This indispensable pocketbook details the newer treatments and offers a comparison with more traditional agents including sulphonyureas, glitazones and insulin. The pros and cons of traditional therapies are discussed as well as the epidemiology and pathogenesis of type 2 diabetes, helping to give the reader a better understanding of the disease area and its management. New Mechanisms in Glucose Control is essential reading for health professionals working in primary or secondary care and involved in treating diabetic patients.

Hawaiki Rising Nov 28 2020 Attuned to a world of natural signs—the stars, the winds, the curl of ocean swells—Polynesian explorers navigated for thousands of miles without charts or instruments. They sailed against prevailing winds and currents aboard powerful double canoes to settle the vast Pacific Ocean. And they did this when Greek mariners still hugged the coast of an inland sea, and Europe was populated by stone-age farmers. Yet by the turn of the twentieth century, this story had been lost and Polynesians had become an oppressed minority in their own land. Then, in 1975, a replica of an ancient Hawaiian canoe—Hōkūleʻa—was launched to sail the ancient star paths, and help Hawaiians reclaim pride in the accomplishments of their ancestors. Hawaiki Rising tells this story in the words of the men and women who created and sailed aboard Hōkūleʻa. They speak of growing up at a time when their Hawaiian culture was in danger of extinction; of their vision of sailing ancestral sea-routes; and of the heartbreaking loss of Eddie Aikau in a courageous effort to save his crewmates when Hōkūleʻa capsized in a raging storm. We join a young Hawaiian, Nainoa Thompson, as he rediscovers the ancient star signs that guided his ancestors, navigates Hōkūleʻa to Tahiti, and becomes the first Hawaiian to find distant landfall without charts or instruments in a thousand years. Hawaiki Rising is the saga of an astonishing revival of indigenous culture by voyagers who took hold of the old story and sailed deep into their ancestral past.

Vee's for Victory! Dec 10 2021 Over 60 percent of U.S. Army fighters during World War II were powered by the Allison V-1710 engine. It was a strong and reliable power plant that powered the pre-war generation of 400 mph Army pursuits, and the majority of Army combat fighters on through World War II. Even so, the V-1710 was controversial and often maligned, considered by some to have been a "second-rate" engine. Author Whitney's objective was to find, and tell, the true story of the 70,000 V-1710's and the people who built them. A critique of Vee's For Victory! was provided by the Editor of Wings Magazine, August 1997, who wrote: "Presenting the 1929-1948 story of Allison's V-1710 engine in a revealing investigative style that uncovers a great deal of new material, this well-illustrated volume represents something seldom seen these days - pure, original research. Combined with lucid writing and penetrating analysis, Vee's for Victory! recounts Allison's up and down career from Curtiss XP-37, through the XP-58, and GM XP-75 Eagle. In between are all the major fighters which utilized the Allison, including the P-38, P-39, the lightweight fighters XP-46A and XP-47, as well as the early P-51 Mustangs. Author Dan Whitney carefully and seamlessly grafts the histories of these aircraft to their engines and supercharger components, relying on new information from aero engineers and test pilots to present what is sure to become a milestone in the recording of aviation history."

Addressing Challenging Moments in Psychotherapy Jun 04 2021 "This practical and helpful volume details how clinicians can work through various and common challenges inherent to psychotherapy, whether within the context of individual, marital, or group settings. Chapters draw upon wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation and favor working in the here-and-now. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt termination of therapy, treating a couple that's lost compassionate neutrality, and more. In addition to offering advice and strategies for therapists, the book also addresses foundational concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, Challenging Moments in Psychotherapy is essential reading for all clinicians, teachers, and supervisors of psychotherapy"--

Erik Madigan Heck Apr 21 2020 The influence of art, notably painting, is a thread that runs through the history of fashion photography. From Edward Steichen, Irving Penn, and Horst P. Horst to Guy Bourdin and Sarah Moon, the great fashion photographers have often positioned their work as art. Erik Madigan Heck's work explores this intersection of fashion, painting, and classical portraiture. Erik Madigan Heck: Old Future presents more than 100 photographs in a flowing, chromatic sequence. The photographs featured--published in the New York Times Magazine, New York, Harper's Bazaar UK, Porter, and more--show his range and vivid use of color, and his ability to produce evocative and seductive images that are simultaneously timeless and futuristic. With essays by Susan Bright and Justine Picardie that look at Heck's place within the realms of both art photography and fashion, this book is the essential introduction to a future master of fashion photography.

The Complete Guide to Drones Extended 2nd Edition Apr 14 2022 The only thing growing faster than the drone market is the amount of misinformation about them. Almost overnight popular drones like the instantly recognizable DJI Phantom have created a billion-dollar industry, with a foothold in everything from movie-making to the toy market. This book shows you everything there is to know about drones/multicopters/UAVs (including what really is the correct term for them) in plain, jargon-free English. Find out how they work, how to fly them, how to choose the right drone for you, how to take amazing photos and videos from above and more. The text is accompanied with clear illustrations and brand-new photography. Also included is a complete step-by-step project to build your own modestly-priced drone - great as a first step into the world of drones; fun for one, perfect as an educational project for parent and child. In addition there is a layman's guide to the crucial legal issues around drone flying, and there is an accompanying website with video clips and community links. This book is all you need to take to the skies!
